NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

Our accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles ("GAAP") in the United States for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of our management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. All significant intercompany transactions have been eliminated. Certain reclassifications were made to prior year balances to conform with the presentation of the financial statements for the six months ended September 29, 2007. Additionally, the FY07 amounts have been restated in accordance with Accounting Principles Board, Opinion No. 18, "The Equity Method of Accounting for Investments in Common Stock" to reflect our investment in Arryx, Inc. for periods prior to the acquisition on July 18, 2006. Operating results for the three and six month periods ended September 29, 2007 are not necessarily indicative of the results that may be expected for the full fiscal year ending March 29, 2008 or any other interim period. These unaudited consolidated financial statements should be read in conjunction with our audited consolidated financial statements and footnotes included in our annual report on Form 10-K for the fiscal year ended March 31, 2007.

Our fiscal year ends on the Saturday closest to the last day of March. Fiscal year 2008 and 2007 include 52 weeks with all four quarters including 13 weeks.

Revenue Recognition

Our revenue recognition policy is to recognize revenues from product sales, software and services in accordance with SAB No. 104, "Revenue Recognition" which requires that revenues are recognized when persuasive evidence of an arrangement exists, product delivery, including customer acceptance, unless perfunctory, has occurred or services have been rendered, the price is fixed or determinable and collectibility is reasonably assured.

Multiple element arrangements

When more than one element such as equipment, disposables and services are contained in a single arrangement, we allocate revenue between the elements based on each element's relative fair value, provided that each element meets the criteria for treatment as a separate unit of accounting. An item is considered a separate unit of accounting if it has value to the customer on a stand alone basis and there is objective and reliable evidence of the fair value of the undelivered items. The fair value of the undelivered elements is determined by the price charged when the element is sold separately, or in cases when the item is not sold separately, by the using other objective evidence as defined in Emerging Issues Task Force (EITF) Issue No. 00-21, "Revenue Arrangements with Multiple Deliverables."

Product Revenues

Product sales consist of the sale of our equipment devices, the related disposables used in these devices and intravenous solutions manufactured for pharmaceutical companies. On product sales to customers, revenue is recognized when both the title and risk of loss have transferred to the customer as determined by the shipping terms and all post delivery obligations have been achieved to the full satisfaction of the customer. Examples of common post delivery obligations are installation and

training. For product sales to distributors, we recognize revenue for both equipment and disposables upon shipment of these products to our distributors. Our standard contracts with our distributors state that title to the equipment passes to the distributors at point of shipment to a distributor's location. The distributors are responsible for shipment to the end customer along with installation, training and acceptance of the equipment by the end customer. All shipments to distributors are at contract prices and payment is not contingent upon resale of the product.

Software and Service Revenues

Software sales consist of the sale of our donor management information technology developed by our subsidiary, 5D and the newly acquired Information Data Management, Inc. ("IDM") business.

2. RECENT ACCOUNTING PRONOUNCEMENTS

In September 2006, the FASB issued FASB No. 157, "Fair Value Measurements" ("FASB No. 157"), which addresses how companies should measure fair value when they are required to use a fair value measure for recognition or disclosure purposes under generally accepted accounting principles. FASB No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. FASB No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and should be applied prospectively, except in the case of a limited number of financial instruments that require retrospective application. We are currently evaluating the potential impact of FASB No. 157 on our financial position and results of operations. This statement is effective for our fiscal year 2009.

In February 2007, the FASB issued FASB No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115" ("FASB No. 159"). The new statement allows entities to choose, at specified election dates, to measure eligible financial assets and liabilities at fair value that are not otherwise required to be measured at fair value. If a company elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. FASB No. 159 is effective for fiscal years beginning after November 15, 2007. We are currently evaluating the potential impact of FASB No. 159 on our financial position and results of operations. This statement is effective for our fiscal year 2009.

3. EARNINGS PER SHARE ("EPS")

The following table provides a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations, as required by FASB Statement No. 128, "Earnings Per

Share." Basic EPS is computed by dividing net income by weighted average shares outstanding. Diluted EPS includes the effect of potentially dilutive common shares.

4. STOCK-BASED COMPENSATION

Stock-based compensation expense of \$4.6 million and \$5.3 million was recognized for the six months ended September 29, 2007 and September 30, 2006, respectively. The related income tax benefit recognized was \$1.3 million and \$1.5 million for the six months ended September 29, 2007 and September 30, 2006, respectively. We recognize stock-based compensation on a straight line basis.

For a more detailed description of our stock-based compensation plans, see Note 11—Capital Stock to the Company's consolidated financial statements included in our Annual Report on Form 10-K for the year ended March 31, 2007. Our stock-based compensation plans currently consist of stock options, restricted stock and an employee stock purchase plan. Options become exercisable in the manner specified by the Compensation Committee of our Board of Directors. Options, restricted stock

and restricted stock units granted to employees in the six months ended September 29, 2007 vest over a four year period of time and the options expire not more than 7 years from the date of grant. Restricted stock units and options granted to the Board of Directors in the six months ended September 29, 2007 vest 1 year from the date of grant and the options expire not more than 7 years from the date of grant.

Cash flows relating to the benefits of tax deductions in excess of compensation cost recognized (in our reported or proforma results) are reported as a financing cash flow, rather than as an operating cash flow, as previously required. This excess tax benefit was \$0.2 million and \$1.4 million for the three months ended September 29, 2007 and September 30, 2006, respectively, and \$0.8 million and \$1.7 million for the six months ended September 29, 2007 and September 30, 2006, respectively.

A summary of information related to stock options is as follows:

	Options Outstanding		Weighted Average Exercise Price	Weighted Average Remaining Life (Years)	_	Aggregate Intrinsic Value (\$000's)
Outstanding at March 31, 2007	4,064,478	\$	35.30	5.41	\$	51,057
Granted	1,799	\$	47.80			
Exercised	(259,742)	\$	29.20			
Terminated	(6,524)	\$ —	36.04			
Outstanding at June 30, 2007	3,800,011	\$	35.72	5.20	\$	64,484
Granted	32,144	\$	49.92			
Exercised	(58,937)	\$	28.68			
Terminated	(40,890)	\$	47.14			
Outstanding at September 29, 2007	3,732,328	\$	35.83	4.93	\$	53,040
Exercisable at September 29, 2007	2,509,398	\$	31.06	4.65	\$	46,758
Expected to Vest at September 29, 2007	3,485,919	\$	35.09	4.90	\$	51,890

The total intrinsic value of options exercised during the three month periods ended September 29, 2007 and September 30, 2006, was \$1.3 million and \$5.1 million, respectively, and \$6.8 million and \$9.2 million for the six month periods ended September 29, 2007 and September 30, 2006, respectively.

As of September 29, 2007 and September 30, 2006, there was \$15.0 million and \$21.4 million, respectively, of total unrecognized compensation cost related to non vested share-based compensation arrangements. That cost is expected to be recognized over a weighted average period of 2.2 years and 2.0 years. The total fair value of shares fully vested during the six months ended September 29, 2007 and September 30, 2006 was \$25.5 million and \$17.4 million, respectively.

The weighted average fair value for our options granted in the first six months of 2007 and 2006 was \$17.78 and \$19.12, respectively. The fair value was estimated using the Black-Scholes option-pricing model based on the weighted average of the high and low stock prices at the grant date and the weighted average assumptions specific to the underlying options. Expected volatility assumptions are based on the historical volatility of our common stock. The risk-free interest rate was selected based

upon yields of U.S. Treasury issues with a term equal to the expected life of the option being valued. The expected life of the option was estimated with reference to historical exercise patterns, the contractual term of the option and the vesting period. The assumptions utilized for option grants during the periods presented are as follows:

	Six Months	Ended
	September 29, 2007	September 30, 2006
Stock Options Black-Scholes assumptions (weighted average):		
Volatility	30.18%	31.00%
Expected life (years)	5.0	5.0
Risk-free interest rate	4.61%	5.00%
Dividend yield	0.00%	0.00%

As of September 29, 2007 there was \$0.3 million of total unrecognized compensation cost related to non vested restricted stock awards. That cost is expected to be recognized over a weighted average period of 3.59 years. The total fair value of shares fully vested during the six months ended September 29, 2007 was \$0.0 million.

A summary of information related to restricted stock awards is as follows:

	Shares	Weighted Average Share Price
Nonvested at March 31, 2007	0	\$ 0.00
Granted	10,000	\$ 48.09
Vested	_	
Forfeited	_	_
Terminated	_	
Nonvested at September 29, 2007	10,000	\$ 48.09

As of September 29, 2007 there was \$0.1 million of total unrecognized compensation cost related to non vested restricted stock units. That cost is expected to be recognized over a weighted average period of 2.02 years. The total fair value of shares fully vested during the six months ended September 29, 2007 was \$0.0 million.

A summary of information related to restricted stock units is as follows:

	Shares	Weighted Average Share Price
Nonvested at March 31, 2007	0	\$ 0.00
Granted	3,305	\$ 50.16
Vested	<u> </u>	
Forfeited	_	<u> </u>
Terminated	_	_
Nonvested at September 29, 2007	3,305	\$ 50.16

As of September 29, 2007, there was \$0.1 million of total unrecognized compensation expense, net of estimated forfeitures, related to Employee Stock Purchase Plan ("ESPP") shares. That cost is expected to be recognized during 2007.

During the six months ended September 29, 2007 and September 30, 2006, there were 28,968 and 24,372 shares purchased under the ESPP, respectively. They were purchased at \$38.6325 and \$41.5225 per share under the ESPP.

5. ACCOUNTING FOR SHIPPING AND HANDLING COSTS

Shipping and handling costs are included in costs of goods sold with the exception of \$2.5 million and \$1.8 million for the three month periods ended September 29, 2007 and September 30, 2006, respectively, and \$4.4 million and \$3.3 million for the six month periods ended September 29, 2007 and September 30, 2006, respectively, that are included in selling, general and administrative expenses. Freight is classified in costs of goods sold when the customer is charged for freight and in selling, general and administration when the customer is not explicitly charged for freight.

6. FOREIGN CURRENCY

We enter into forward exchange contracts to hedge the anticipated cash flows from forecasted foreign currency denominated revenues, principally Japanese Yen and Euro. The purpose of our hedging strategy is to lock in foreign exchange rates for twelve months to minimize, for this period of time, the unforeseen impact on our results of operations of fluctuations in foreign exchange rates. We also enter into forward contracts that settle within 35 days to hedge certain intercompany receivables denominated in foreign currencies. These derivative financial instruments are not used for trading purposes. The cash flows related to the gains and losses on these foreign currency hedges are classified in the consolidated statements of cash flows as part of cash flows from operating activities.

7. PRODUCT WARRANTIES

We provide a warranty on parts and labor for one year after the sale and installation of each device. We also warrant our disposable products through their use or expiration. We estimate our potential warranty expense based on our historical warranty experience, and we periodically assess the adequacy of our warranty accrual and make adjustments as necessary.

	For the three months ended					
	Septeml	September 29, 2007				
		(in thou	sands)			
Warranty accrual as of the beginning of the period	\$	734	\$	676

Warranty accrual as of the beginning of the period	\$	734	\$	676		
Warranty Provision		988		820		
Warranty Spending		(988)		(818)		
Warranty accrual as of the end of the period	\$	734	\$	678		

8. COMPREHENSIVE INCOME

Comprehensive income is the total of net income and all other non-owner changes in stockholders' equity. For us, all other non-owner changes are primarily foreign currency translation, the change in our net minimum pension liability and the changes in fair value of the effective portion of our outstanding cash flow hedge contracts.

A summary of the components of other comprehensive income is as follows:

	For the three months ended					
(In thousands)		mber 29, 2007	September 30, 2006			
Net income	\$	11,167	\$	1,266		
Other comprehensive income:						
Foreign currency translation		3,475		800		
Unrealized (loss) on cash flow hedges, net of tax		(2,681)		(182)		
Reclassifications into earnings of cash flow hedge losses/(gains), net of tax		280		(163)		
Total comprehensive income	\$	12,241	\$	1,721		
		For the six n	nonths end	led		
(In thousands)	September 29, 2007 September 30, 2			nber 30, 2006		
Net income	\$	23,844	\$	12,422		
Other comprehensive income:				0 = 0 :		
Foreign currency translation		3,772		3,561		
Unrealized (loss) on cash flow hedges, net of tax		(1,930)		(1,903)		
Reclassifications into earnings of cash flow hedge losses / (gains), net of tax		446		(900)		
Total comprehensive income	\$	26,132	\$	13,180		

9. INVENTORIES

Inventories are stated at the lower of cost or market and include the cost of material, labor and manufacturing overhead. Cost is determined on the first-in, first-out method.

Inventories consist of the following:

	Septe	September 29, 2007		rch 31, 2007
		(in thousa	nds)	
Raw materials	\$	22,860	\$	15,190
Work-in-process		9,791		7,681
Finished goods		33,418		38,927
	\$	66,069	\$	61,797
	_			

10. GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill

The change in the carrying amount of our goodwill during the six months ended September 29, 2007 is as follows (in thousands):

Carrying amount as of March 31, 2007	\$ 34,958
Arryx, Inc(a)	25
IDM, Inc.(b)	36
Effect of change in rates used for translation	223
Carrying amount as of September 29, 2007	\$ 35,242

⁽a) See Foot Note #3, Acquisitions, in our fiscal year 2007 Form 10-K for a full description of the acquisition of Arryx, Inc. which occurred on July 18, 2006.

Other Intangible Assets

As of September 29, 2007

Trade name		504		n/a	Indefinite
Total Intangibles	\$	51,141	\$	17,284	

On July 9, 2007, the Company acquired the assets of Infonalé, Inc. (Infonalé) for approximately \$1.3 million in cash plus contingent consideration based upon future operating performance. Infonalé is a leading developer of IT software and consulting services for optimizing hospital blood use and management. The purchase price was principally allocated to intangible assets including other technology and goodwill. The results of the Infonalé operations are included in our consolidated results for periods after the acquisition date.

Other changes to the net carrying value of our intangible assets from March 31, 2007 to September 29, 2007, reflect the capitalization of software costs associated with our next generation Donor apheresis platform (see Footnote #16), amortization expense and the effect of exchange rate changes in the translation of our intangible assets held by our international subsidiaries.

Amortization expense for amortized other intangible assets was \$1.0 million and \$0.7 million for the three months ended September 29, 2007 and September 30, 2006, respectively and \$1.9 million and \$1.3 million for the six months ended September 29, 2007 and September 30, 2006, respectively. Annual amortization expense is expected to approximate \$3.8 million for fiscal years 2008, \$5.7 for both fiscal years 2009 and 2010, \$5.6 million for fiscal year 2011, and \$5.3 million for fiscal year 2012.

11. INCOME TAXES

Our reported tax rate includes two principal components: an expected annual tax rate and discrete items that are recorded in the quarter that an event arises. Events or items that give rise to discrete recognition include finalizing audit examinations for open tax years, a statute of limitation's expiration, and a stock acquisition.

The reported tax rate was 32.8% and 32.0% for the current three and six month period ended September 29, 2007. The reported tax rate was 82.8% and 49.3% for the three and six month period ended September 30, 2006.

The reported tax rate includes a 34.4% expected annual tax rate that reflects lower tax exempt income and export credits than in prior periods, offset by several discrete items including a \$0.5 million

reversal of previously accrued foreign income taxes in Japan due to expiration of the statute of limitations; a \$0.3 million tax benefit associated with the repatriation of foreign earnings.

We expect our annual tax rate to be approximately 34.4% for the remainder of fiscal year 2008. Future adjustments may, however, increase or decrease the reported tax rate for discrete items.

We adopted the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes"—an Interpretation of FASB Statement 109 (FIN 48), effective April 1, 2007. FIN 48 provides a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns. Unrecognized tax benefits represent tax positions for which reserves have been established.

As of April 1, 2007, our unrecognized tax benefits totaled approximately \$6.5 million which, if recognized, would favorably affect our effective tax rate in future periods. No adjustment was made to the liability for unrecognized tax benefits as of April 1, 2007 or September 29, 2007, or the current year's tax provision in connection with the adoption of FIN 48. Each year the statute of limitations for income tax returns filed in various jurisdictions closes, sometimes without adjustments. In addition to the expiration of the statute of limitations in Japan during the six month period ended September 29, 2007, approximately \$1.4 million of unrecognized tax benefits may be recognized through the end of the fiscal year if the statute of limitations closes and no adjustment is made to our tax position.

Our historic practice has been and continues to be to recognize interest and penalties related to Federal, state, and foreign income tax matters in income tax expense. Approximately \$0.8 million and \$0.7 million is accrued for interest at September 29, 2007 and March 31, 2007, respectively.

We conduct business globally and, as a result, file consolidated and separate Federal, state, and foreign income tax returns in multiple jurisdictions. In the normal course of business, we are subject to examination by taxing authorities throughout the world in jurisdictions including the U.S., Japan, Germany, France, the United Kingdom, and Switzerland. With few exceptions, we are no longer subject to U.S. federal, state and local, or foreign income tax examinations for years before 2004.

12. COMMITMENTS AND CONTINGENCIES

We are presently engaged in various legal actions, and although ultimate liability cannot be determined at the present time, we believe, based on consultation with counsel, that any such liability will not materially affect our consolidated financial position or our results of operations.

13. DEFINED BENEFIT PENSION PLANS

Certain of the Company's foreign subsidiaries have defined benefit pension plans covering substantially all full time employees at those subsidiaries. Net periodic benefit costs for the plans in the aggregate include the following components:

	For the three months ended				
	September 29, 2007		September 30, 2006		
		(in thou	ısands)		
Service Cost	\$	143	\$	162

14. SEGMENT INFORMATION

Segment Definition Criteria

We manage our business on the basis of one operating segment: the design, manufacture and marketing of automated blood management systems. Our chief operating decision-maker uses consolidated results to make operating and strategic decisions. Manufacturing processes, as well as the regulatory environment in which we operate, are largely the same for all product lines.

Enterprise Wide Disclosures About Product and Services

We have three families of products: (1) those that serve the blood donor, (2) those that serve the patient and (3) our services and software products which are used in connection with our donor and patient products. Under the donor family of products we have included blood bank, red cell and plasma collection products. The patient products include autologous blood salvage products targeting surgical patients who lose blood while in the operating room and while in recovery.

Donor

The blood bank products include machines, single use disposables and solutions that perform "apheresis," (the separation of whole blood into its components and subsequent collection of certain components, including platelets and plasma) as well as the washing of red blood cells for certain procedures. The main devices used for these blood component therapies are the MCS®+ mobile collection systems and the ACP® 215 automated cell processing system. In addition, the blood bank product line includes generic solutions that we produce for pharmaceutical companies pursuant to contracts.

Red cell products include machines, single use disposables and solutions that perform apheresis for the collection of red blood cells. The devices used for the collection of red blood cells is the MCS®+ mobile collection system and the newly released Cymbal device.

Plasma collection products are machines, disposables and solutions that perform apheresis for the separation of whole blood components and subsequent collection of plasma. The devices used in automated plasma collection are the PCS®2 plasma collection system and the SuperliteTM.

Patient

Patient products include machines and single use disposables that perform surgical blood salvage in orthopedic and cardiovascular surgical applications. Patient products include the OrthoPAT®, Cell Saver® and cardioPAT autologous blood recovery systems, and the Smart Suction Harmony which is a suction device designed to operate together with these blood recovery systems, as well as with competitive blood recovery systems. Cell Saver technologies are used in cardiovascular procedures, specifically higher blood loss surgeries and trauma. The cardioPAT is used for cardiovascular surgeries where there is less bleeding, and is used post-operatively as well. OrthoPAT technology is used for lower, slower blood loss orthopedic procedures, where bleeding takes place during and after surgery. These technologies perform a procedure whereby shed blood is collected, cleansed and made available to be transfused back to the patient.

Software Solutions and Services

Software solutions and services revenue includes revenue generated from our software offerings and from equipment repairs performed under preventive maintenance contracts or emergency service billings and miscellaneous sales, including parts. Software solutions provide software support and collection and data management systems, to plasma collectors, blood banks and the U.S. Department of Defense.

15. RESTRUCTURING

In FY2007, we embarked on the first year of a business transformation with the primary focus on our international businesses. The goal of the transformation was to position these businesses to complement the growth of our U.S. business.

Having completed the business transformation in both Japan and Asia, on April 2, 2007 management approved a plan to consolidate our customer support functions in Europe into our European Headquarters in Signy, Switzerland. The consolidated center in Signy will include finance, customer and sales support, and logistics supply chain management. The consolidation of these functions is planned to occur during the current fiscal year. To complete this plan we expect to incur exit related costs of \$4 million to \$5 million, including up to \$3.5 million of one-time termination benefits and related costs (principally severance and outplacement costs), \$0.75 million of relocation costs and \$0.75 million of costs associated with reducing our facilities.

We expect this transformation will yield improved operating effectiveness, including improved customer service, enhanced business continuity for our global organization, and greater professional development opportunities for our employees, as well as annual operating savings of approximately \$1.5 million.

During the six months ended September 29, 2007, we began the reorganization of certain of our international sales and service organizations and recorded pre-tax restructuring costs of \$2.3 million for the six months ended September 29, 2007, as selling, general and administrative costs. Additionally, we incurred other transformation costs of \$0.5 million for the six months ended September 29, 2007, including the costs of hiring new personnel in Signy, Switzerland.

The following summarizes the restructuring activity for the six months ended September 29, 2007 and September 30, 2006, respectively:

Six Months Ended September 29,	29, 2007	otember	Se	Ended	Months	Six

16. CAPITALIZATION OF SOFTWARE DEVELOPMENT COSTS

The Company is implementing an Enterprise Resource Planning (ERP) system. In Fiscal 2007, we began our plan to implement the system in three phases over three years.

The cost of software that is developed for internal use is accounted for pursuant to AICPA Statement of Position 98-1, "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use" ("SOP 98-1"). Pursuant to SOP 98-1, the Company capitalizes costs incurred during the application development stage of software developed for internal use, and expenses costs incurred during the preliminary project and the post-implementation operation stages of development. The Company capitalized \$4.8 million and \$2.5 million, respectively, during the six month periods ended September 29, 2007 and September 30, 2006, in costs incurred for acquisition of the software license and related software development costs for new internal software development that was in the application stage. The total capitalized costs incurred to date include \$1.8 million for the cost of the software license and \$11.8 million in internal personnel and third party development costs.

SFAS No. 86, "Accounting for the Cost of Computer Software to be Sold, Leased or Otherwise Marketed", specifies that costs incurred internally in researching and developing a computer software product should be charged to expense until technological feasibility has been established for the product. Once technological feasibility is established, all software costs should be capitalized until the product is available for general release to customers. In connection with the development of our next generation Donor apheresis platform, the Company capitalized \$2.5 million during the six month period ended September 29, 2007 and \$8.5 million in total software development costs. All costs capitalized were incurred after a detailed design of the software was developed and research and development activities on the underlying device were completed. We will begin to amortize these costs when the device is released for sale.

17. SUBSEQUENT EVENT

On October 30, 2007 the Company announced a definitive agreement whereby Haemonetics will acquire Haemoscope's TEG® Thrombelastograph® Hemostasis Analyzer business for \$44 million cash. The acquisition is expected to close within the next several weeks. Haemoscope Corporation is a provider of whole blood hemostasis monitoring systems. The TEG system can predict a patient's risk of bleeding and thrombotic complications and enable personalized therapy. The results of the Haemoscope's operations will be included in our consolidated results for periods after the acquisition date.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") should be read in conjunction with both our interim consolidated financial statements and notes thereto which appear elsewhere in this Quarterly Report on Form 10-Q and the MD&A contained in our fiscal year 2007 Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC") on May 25, 2007. The following discussion may contain forward-looking statements and should be read in conjunction with the "Cautionary Statement Regarding Forward-Looking Information" beginning on page 35.

Our Business

Haemonetics is a blood management solutions company for our customers. Anchored by our reputable device technologies, we also provide information systems and valued added services to provide customer solutions which support improved clinical outcomes and efficiency in the blood supply chain.

We design, manufacture and market automated systems for the collection, processing and surgical salvage of donor and patient blood, including the single-use disposables used with our systems and related information services and data management software. Our systems allow users to collect and process only the blood component(s) they target, plasma, platelets, or red blood cells, increasing donor and patient safety as well as collection efficiencies. Our systems consist of proprietary disposable sets that operate on our specialized equipment. Our data management systems are used by blood collectors to improve the safety and efficiency of blood collection logistics by eliminating previously manual functions at commercial plasma and not-for-profit blood banks.

We either sell our devices to customers (resulting in equipment revenue) or place our devices with customers subject to certain conditions. When the device remains our property, the customer has the right to use it for a period of time as long as the customer meets certain conditions we have established, which among other things, generally include one or more of the following:

- Purchase and consumption of a minimum level of disposable products
- Payment of monthly rental fees
- An asset utilization performance metric, such as performing a minimum level of procedures per month per device.

Our disposable revenue stream (including sales of disposables and fees for the use of our equipment) accounted for approximately 87.2% and 88.8% of our total revenues for the second quarter of fiscal year 2008 and 2007, respectively and 86.6% and 88.9% of our total revenues for the first six months of fiscal year 2008 and 2007, respectively.

Net income % of net revenues	\$	11,167 \$ 9.2%	1,266 1.2%	782.1% \$	23,844 \$ 9.8%	12,422 5.7%	91.9%
Earnings per share-diluted	\$	0.422 \$	0.045	837.8% \$	0.885 \$	0.444	99.3%

Net revenues increased 11.7% and 10.9%, respectively for the second quarter and the first six months of fiscal year 2008 over the comparable period of fiscal year 2007. The effects of foreign exchange accounted for a decrease of 0.9% and 0.4% for the second quarter and the first six months, respectively. The remaining increase of 12.7% for the quarter and 11.4% for the first six months is mainly due to increases in our disposables revenue, software revenues and equipment sales. The increase in disposable revenue for the quarter resulted primarily from disposable unit increases in our plasma, blood bank and OrthoPAT product lines. The software growth was due to organic growth and the acquisition of IDM, Inc. which took place in Q4FY07.

Gross profit increased 8.6% and 7.9%, respectively for the second quarter and the first six months of fiscal year 2008 over the comparable period of fiscal year 2007. The unfavorable effects of foreign exchange accounted for a decrease of 1.0% for the quarter and 1.6% for the first six months. The remaining increase of 9.5% for the quarter and 9.6% for the first six months was due primarily to increased sales offset partly by changes in product mix.

Operating income increased 183.5% and 51.6%, respectively for the second quarter and the first six months of fiscal year 2008 over the comparable period of fiscal year 2007. The unfavorable effects of foreign exchange accounted for a decrease of operating income of 17.0% for the quarter and 20.5% for the first six months. Without the unfavorable effects of foreign exchange operating income increased 168.9% for the quarter and 72.3% for the first six months. These increases were largely a result of an in process research and development charge of \$9.1 million taken in the second quarter of fiscal 2007 in connection with the acquisition of Arryx, Inc., and the gross profit changes described above offset by higher operating expenses of 9.1% which are largely related to increases in ERP spending as we achieved our major go live milestones.

Net income increased 782.1% and 91.9%, respectively for the second quarter and the first six months of fiscal year 2008 over the comparable period of fiscal year 2007. The unfavorable effects of

foreign exchange accounted for decreases of 82.2% for the quarter and 22.2% for the first six months of fiscal year 2008. Without the unfavorable effects of foreign exchange net income increased 739.8% for the quarter and 114.1% for the first six months of fiscal year 2008 over the comparable period of fiscal year 2007. The main factors that affected net income were the increases in operating income due to the reasons mentioned above and to a lower tax rate.

International Operations and the Impact of Foreign Exchange

Our principal operations are in the U.S., Europe, Japan and other parts of Asia. Our products are marketed in more than 50 countries around the world via a direct sales force as well as independent distributors.

Our revenues generated outside the U.S. approximated 55.6% and 56.9% of total sales for the second quarter of fiscal years 2008 and 2007, respectively and 55.3% and 57.5% for the first six months of fiscal years 2008 and 2007, respectively. Revenues in Japan accounted for approximately 19.6% and 21.5% of total revenues for the second quarter of fiscal year 2008 and 2007, respectively and 18.2% and 20.9% of total revenues for the first six months of fiscal year 2008 and 2007, respectively. Revenues in Europe accounted for approximately 27.4% and 26.4% of total revenues for the second quarters of fiscal year 2008 and 2007 and 29.2% and 27.9% of total revenues for the first six months of fiscal year 2008 and 2007, respectively. International sales are primarily conducted in local currencies, primarily the Japanese Yen and the Euro. As discussed above, our results of operations can be impacted by changes in the value of the Yen and the Euro relative to the U.S. dollar.

Please see section entitled "Foreign Exchange" in this discussion for a more complete explanation of how foreign currency affects our business and our strategy for managing this exposure.

DONOR PRODUCTS

Donor products include the Plasma, Blood Bank and Red Cell product lines. Disposables revenue for donor products increased 11.4% compared to the second quarter of fiscal year 2007 and 9.9% for the first six months over the comparable period in fiscal year 2007. Foreign exchange resulted in a 0.7% decrease for the second quarter and 1.1% decrease for the first six months over the comparable period in fiscal year 2007. The remaining increase of 12.1% for the quarter and 11.1% for the first six months was driven by increases in the Plasma and Blood Bank product lines, as discussed below.

Plasma

Plasma disposable revenue increased 17.2% and 15.1%, respectively, for the second quarter and the first six months of fiscal year 2008 compared to the same periods in fiscal year 2007. Foreign exchange had no effect on plasma disposables revenue for the quarter and the first six months. The growth for the quarter and for the first six months comes from the U.S. and Europe sales increase. The U.S. increase was due largely to unit growth across our customer base. Europe plasma growth is also the result of increases in collections by our customers as the demand for source plasma strengthened.

Blood Bank

Blood bank disposable revenue for donor products increased 7.8% and 6.6%, respectively, for the second quarter and the first six months of fiscal year 2008 compared to the same periods in of fiscal year 2007. Foreign exchange resulted in a of 1.2% decrease in blood bank disposables revenue during the quarter and 3.2% decrease in the first six months over the comparable period in fiscal year 2007.

Without the effect of currency, blood bank revenue increased 9.1% for the quarter and 9.9% for the first six months over fiscal year 2007. In the quarter and the first six months, Europe, Asia and Japan account for the increase. The increase in Europe is distributed across most of our direct markets. The Asia sales increase is largely in China as our business there moves from distribution sales to direct sales and stronger market conditions for platelets. The Japan increase is largely due to a price increase.

Red Cell

Red Cell disposable revenue increased 4.5% compared to the second quarter of fiscal year 2007 and 3.8% compared to the first six months of fiscal year 2007. Foreign exchange accounted for an decrease of 1.0% in the quarter and an increase of 1.7% for the first six months over the comparable period in fiscal year 2007. Of the remaining increase of 5.5% for the quarter and 2.1% for the first six months, it is split between Europe and the U.S.

PATIENT PRODUCTS

The patient product line has two major brand platforms: the Cell Saver® brand and the OrthoPAT® brand. Patient disposables revenue increased 4.0% compared to the second quarter of fiscal year 2007 and 2.2% compared to the first six months of fiscal year 2007. Foreign exchange resulted in a 0.5% decrease in patient disposables revenue during the quarter and a 0.4% increase during the first six months. The remaining increase of 4.5% for the quarter and 1.8% for the first six months was the result of increases in the Surgical and OrthoPAT product lines, as discussed below.

Surgical

Surgical disposables revenue increased 0.8% as compared to the second quarter of fiscal year 2007 and decreased 1.2% as compared to the first six months of fiscal 2007. Foreign exchange resulted in a 0.3% decrease in surgical disposable revenue during the quarter and a 0.1% increase the first six months. Surgical disposables revenue consists principally of Cell Saver products. Without the effect of

currency, surgical disposables revenue increased 1.2% for the quarter and decreased 1.4% for the first six months. The increase for the three months comes from Europe and Asia. The decrease for the first six months largely comes from the U.S. and Japan and is offset somewhat by sales gains in Europe. The reason for the reduction in market demand is due to fewer open heart surgeries.

OrthoPAT

OrthoPAT disposables revenue increased 10.8% as compared to the second quarter of fiscal year 2007 and 9.5% for the first six months of fiscal 2007. Foreign exchange resulted in a 0.8% decrease in OrthoPAT disposables revenue during the quarter and a 0.8% increase for the first six months. Without foreign exchange, revenues increased by 11.7% and 8.8%, respectively for the second quarter and the first six months of fiscal year 2008 compared to the same period in fiscal year 2007. Growth was largely in the U.S. and Europe. The sales increase in the U.S. is attributable to unit growth in both existing sites and new accounts. Europe's growth is attributed to sales initiatives focused on the penetration of this technology.

Other Revenues

		For	the three months ended		For the six months ended						
(in thousands)	Se	ptember 29, 2007	September 30, 2006	% Increase/ (Decrease) Q2FY08 vs. Q2FY07	September 29, 2007	September 30, 2006	% Increase/ (Decrease) YTDFY08 vs. YTDFY07				
Software and services	\$	8,689	\$ 7,766	11.9% \$	18,845	\$ 14,290	31.9%				
Equipment		6,833	4,405	55.1%	13,801	10,013	37.8%				
Total other revenues	\$	15,522 5	\$ 12,171	27.5% \$	32,646	\$ 24,303	34.3%				

Our software and services revenues include revenue from software sales and services revenues from repairs performed under preventive maintenance contracts or emergency service visits, spare part sales, and various service and training programs.

Software and services revenues increased 11.9% as compared to the second quarter of fiscal year 2007 and 31.9% for the first six months. Foreign exchange resulted in a decrease of 1.0% and 0.1% for the quarter and for the first six months, respectively. Without foreign exchange, revenues increased by 13.1% and 32.5%, respectively for the second quarter and the first six months of fiscal year 2008 compared to the same period in fiscal year 2007. For the second quarter the increase is principally due to the acquisition of the IDM blood bank product line. For our existing plasma product line the second quarter of fiscal 2008 represented a period of development as implementation work was performed for several new contracts. For the six months period the increase is due to both the acquisition of the IDM blood bank product lines and increased revenues from the existing plasma related product software and software support services provided to the US Department of Defense.

Revenue from equipment sales increased 55.1% as compared to the second quarter of fiscal year 2007 and 37.8% for the first six months compared to fiscal 2007. Foreign exchange resulted in a 2.5% increase in equipment revenue during the quarter and 1.7% increase for the first six months. The remaining increase of 52.9% for the quarter and 36.5% for the first six months over fiscal year 2007 relates largely to plasma equipment sales in Europe and Asia as the plasma market continues to strengthen and red cell equipment sales in the U.S. in the first six months of fiscal year 2008. Equipment sales fluctuate from period to period.

Gross Profit

		Fo	hree months ended		For the six months ended						
	Sept	ember 29, 2007		September 30, 2006	% Increase/ (Decrease) Q2FY08 vs. Q2FY07	September 29, 2007		September 30, 2006	% Increase/ (Decrease) YTDFY08 vs. YTDFY07		
Gross Profit	\$	59,889	\$	55,162	8.6% \$	5 121,383	\$	112,535	7.9%		
% of net revenues		49.49	6	50.8%		49.9%	6	51.3%			

Gross profit increased 8.6% and 7.9%, respectively, as compared to the second quarter and first six months of fiscal year 2007. Foreign exchange resulted in a 1.0% decrease for the quarter and 1.6% for the first six months in gross profit as compared to fiscal year 2007. The remaining increase of 9.5% for the quarter and 9.6% for the first six months was due primarily to the net increase in sales, and a decrease in equipment depreciation expense primarily as a result of a change in our depreciation life of our U.S. commercial plasma and U.S. OrthoPAT machines. Our Gross Profit margin decreased due to product mix, as we sold more commercial plasma product and consulting services with lower gross margins.

Research and Development

Research and development expenses increased 9.9% as compared to current quarter of fiscal year 2007 and 12.7% for the first six months as compared to fiscal year 2007. The significant factors in the increase for the quarter and the first six months related to Arryx and IDM, acquisitions that took place in second quarter and fourth quarter of fiscal year 2007, respectively.

Selling, General and Administrative

During the second quarter of fiscal year 2008, selling, general and administrative expenses increased 11.0% and 8.8% for the first six months. Foreign exchange resulted in a 0.9% increase in selling, general and administrative during the quarter and a 1.3% increase during the first six months. Excluding the impact of foreign exchange, selling, general and administrative expense increased 10.1% for the second quarter and 7.6% for the first six months as compared to the comparable period in fiscal year 2007. The increase was due largely to phase I ERP expenses of \$2.8 million for the quarter and \$4.3 million for the first six months relating to internal personnel and third party consulting costs and training along with selling, marketing and handling costs to support the 11.7% increase in sales.

These increases were partially offset by reduction in incentive compensation as certain internal performance targets were not met.

In Process Research and Development

Purchased Research and Development

The \$9.1 million purchased research and development that was charged to operating expenses during the second quarter of fiscal year 2007 consists of a project for the advancement and development of the technology in the blood collection and testing applications, and for licensing the technology outside of the blood collection and testing marketplace. The project includes work to reduce the size of the technology, including reducing the size of the laser, and developing mechanisms to label samples and collections.

For purposes of valuing the acquired purchased research development, the Company estimated total costs to complete the current development of the platform of approximately \$11 million. For the in-process project the Company acquired in connection with the acquisition of Arryx, Inc., it used a risk-adjusted discount rate of 29% to discount the projected cash flows. The Company believes that the estimated purchased research and development amounts so determined represent the fair value at the date of acquisition and do not exceed the amount a third party would pay for the projects.

Operating Income

		For	the	three months ended		For the six months ended				
(in thousands)	Sep	tember 29, 2007		September 30, 2006	% Increase Q2FY08 vs. Q2FY07	September 29, 2007		September 30, 2006	% Increase YTDFY08 vs. YTDFY07	
Operating income	\$	14,616	\$	5,156	183.5%\$	30,395	\$	20,047	51.6%	
% of net revenues		12.19	6	4.8%		12.5%	6	9.1%		

Operating income increased 183.5% and 51.6%, respectively, as compared to the second quarter and first six months of fiscal year 2007. Foreign exchange resulted in a 17.0% decrease in operating income during the quarter and 20.5% decrease during the first six months. Without the effects of foreign currency, operating income increased 168.9% for the quarter and 72.3% for the first six months due primarily to gross profit growth, the reduction in the in-process research and development charge as described above, partially offset by increases in operating expenses.

		For	the th	ree months ended						
(in thousands)	Seg	otember 29, 2007		September 30, 2006	% Increase/ (Decrease) Q2FY08 vs. Q2FY07		September 29, 2007		September 30, 2006	% Increase/ (Decrease) YTDFY08 vs. YTDFY07

Total other income, net increased 1.9% during the second quarter of fiscal year 2008 as compared to the second quarter of fiscal year 2007 and increased 4.0% during the six month periods of fiscal year 2008 as compared to the six month periods of fiscal year 2007 due (i) to the net of the decrease in interest income due to lower invested cash resulting from the Company's share repurchase programs in fiscal years 2007 and 2008, and (ii) decrease in interest expense due to lower average fixed rate debt outstanding, and (iii) an increase in other income associated with hedge points.

Income Taxes

	For	the three months ended		For the six months ended						
	September 29, 2007	September 30, 2006	% Increase/ (Decrease) Q2FY08 vs. Q2FY07	September 29, 2007	September 30, 2006	% Increase/ (Decrease) YTDFY08 vs. YTDFY07				
Reported Income Tax Rate	32.8%	82.2%	(49.4)%	32.0%	49.3%	(17.3)%				

Our reported tax rate includes two principal components: an expected annual tax rate and discrete items that are recorded in the quarter that an event arises. Events or items that give rise to discrete recognition include finalizing audit examinations for open tax years, a statute of limitation's expiration, and a stock acquisition.

The reported tax rate was 32.8% and 32.0% for the current three and six month period ended September 29, 2007. The reported tax rate was 82.8% and 49.3% for the three and six month period ended September 30, 2006.

The reported tax rate includes a 34.4% expected annual tax rate that reflects lower tax exempt income and export credits than in prior periods, offset by several discrete items including a \$0.5 million reversal of previously accrued foreign income taxes in Japan due to expiration of the statute of limitations; a \$0.3 million benefit from the repatriation of foreign earnings.

We expect our annual tax rate to be approximately 34.4% for the remainder of fiscal year 2008. Future adjustments may, however, increase or decrease the reported tax rate for discrete items.

We adopted the provisions of FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes"—an Interpretation of FASB Statement 109, (FIN48) effective April 1, 2007. FIN 48 provides a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns. Unrecognized tax benefits represent tax positions for which reserves have been applicable.

As of April 1, 2007, our unrecognized tax benefits totaled approximately \$6.5 million which, if recognized, would favorably affect our effective tax rate in future periods. No adjustment was made to

the liability for unrecognized tax benefits as of April 1,2007 or September 29, 2007 or current year's tax provision in connection with the adoption of FIN 48. Each year the statute of limitations for income tax returns filed in various jurisdictions closes, sometimes without adjustments. In addition to the expiration of the statute of limitations in Japan during the six month period ended September 29, 2007, approximately \$1.4 million of unrecognized tax benefits may be recognized through the end of the fiscal year if the statute of limitations closes and no adjustment is made to our tax position.

Our historic practice has been and continues to be to recognize interest and penalties related to Federal, state, and foreign income tax matters in income tax expense. Approximately \$0.8 million and \$0.7 million is accrued for interest at September 29, 2007 and March 31, 2007, respectively.

We conduct business globally and, as a result, file consolidated and separate Federal, state, and foreign income tax returns in multiple jurisdictions. In the normal course of business, we are subject to examination by taxing authorities throughout the world in jurisdictions including the U.S., Japan, Germany, France, the United Kingdom, and Switzerland. With few exceptions, we are no longer subject to U.S. federal, state and local, or foreign income tax examinations for years before 2004.

Liquidity and Capital Resources

The following table contains certain key performance indicators we believe depict our liquidity and cash flow position:

	Septe	September 29, 2007		March 31, 2007		
		(dollars in the	ousand	usands)		
Cash & cash equivalents	\$	154,983	\$	229,227		
Working capital	\$	271,066	\$	321,654		
Current ratio		4.0		4.9		
Net cash position(1)	\$	130,705	\$	200,351		
Days sales outstanding (DSO)		74		68		
Disposables finished goods inventory turnover		6.0		5.1		

(1) Net cash position is the sum of cash and cash equivalents less total debt.

Our primary sources of capital include cash and cash equivalents, internally generated cash flows, bank borrowings and option exercises. We believe these sources to be sufficient to fund our requirements, which are primarily capital expenditures and acquisitions, including the planned acquisition of Haemoscope's TEG® Thrombelastograph® Hemostasis Analyzer business for \$44 million discussed in FootNote #17 to the financial statements, new business and product development and working capital for at least the next twelve months.

	Septe	ember 29, 2007	September 30, 2006		\$ Increase/ (Decrease)
			(dollar	s in thousands)	
Net cash provided by (used in):

Investing activities		(26,679)		(38,763)	12,084
Financing activities		(68,587)		(4,164)	(64,423)
Effect of exchange rate changes on cash(1)		144		961	(817)
Net (decrease)/increase in cash and cash equivalents	\$	(74,244)	\$	(8,467)	\$ (65,777)

⁽¹⁾ The balance sheet is affected by spot exchange rates used to translate local currency amounts into U.S. dollars. In accordance with GAAP, we have removed the effect of foreign currency throughout our cash flow statement, except for its effect on our cash and cash equivalents.

Haemonetics Corporation repurchased approximately 1.46 million shares of its common stock through September 29, 2007 for an aggregate purchase price of \$75.0 million. This completed a \$75.0 million repurchase program which was announced in May 2007. The Company reflects stock repurchases in its financial statements on a "trade date" basis and as Authorized Unissued shares (Haemonetics is a Massachusetts company and Massachusetts Law mandates that repurchased shares are to be treated as authorized unissued).

Cash Flow Overview:

Six Month Comparison

Operating Activities:

Net cash provided by operating activities decreased in the first six months of fiscal year 2008 as compared to 2007 due primarily to:

- \$11.4 million increase in net income due to an increase in sales offset by the \$9.1 million in process research and development charge in FY07 relating to the Arryx acquisition.
- \$11.8 million increase in Accounts Receivable due to an increase in sales and DSO over the same quarter last year.
- Prepayments of income taxes representing \$6.0 million.
- The payment of refundable VAT associated with the formation of our European shared services center of \$3.2 million.

Investing Activities:

Net cash used in investing activities decreased during the first six months of fiscal year 2008 as compared to 2007 due primarily to:

• A \$21.8 million reduction in cash used for acquisitions.

This reduction was partially offset by:

\$10.0 million of increased capital expenditures predominately related to our ERP system and our installed base.

Financing Activities:

Net cash used by financing activities increased by \$64.4 million, primarily due to share repurchases.

• \$75 million used to repurchase shares of Company common stock in for the first six months of fiscal 2008 as compared to the \$10.6 million used in the same period in fiscal 2007.

Inflation

We do not believe that inflation had a significant impact on our results of operations for the periods presented. Historically, we believe we have been able to mitigate the effects of inflation by improving our manufacturing and purchasing efficiencies, by increasing employee productivity and by adjusting the selling prices of products.

Foreign Exchange

Approximately 55.6% of our sales are generated outside the U.S. in local currencies, yet our reporting currency is the U.S. dollar. Our primary foreign currency exposures in relation to the U.S. dollar are the Japanese Yen and the Euro. Foreign exchange risk arises because we engage in business

in foreign countries in local currency. Exposure is partially mitigated by producing and sourcing product in local currency and expenses incurred by local sales offices. However, whenever the U.S. dollar strengthens relative to the other major currencies, there is an adverse affect on our results of operations and alternatively, whenever the U.S. dollar weakens relative to the other major currencies there is a positive effect on our results of operations.

It is our policy to minimize for a period of time, the unforeseen impact on our financial results of fluctuations in foreign exchange rates by using derivative financial instruments known as forward contracts to hedge the anticipated cash flows from forecasted foreign currency denominated sales. Hedging through the use of forward contracts does not eliminate the volatility of foreign exchange rates, but because we generally enter into forward contracts one year out, rates are fixed for a one-year period, thereby facilitating financial planning and resource allocation. We enter into forward contracts that mature one month prior to the anticipated timing of the forecasted foreign currency denominated sales. These contracts are designated as cash flow hedges and are intended to lock in the expected cash flows of forecasted foreign currency denominated sales at the available spot rate. Actual spot rate gains and losses on these contracts are recorded in sales, at the same time the underlying transactions being hedged are recorded.

We compute a composite rate index for purposes of measuring, comparatively, the change in foreign currency hedge spot rates from the hedge spot rates of the corresponding period in the prior year. The relative value of currencies in the index is weighted by sales in those currencies. The composite was set at 1.00 based upon the weighted rates at March 31, 1997. The composite rate is presented in the period corresponding to the maturity of the underlying forward contracts.

The favorable or (unfavorable) changes are in comparison to the same period of the prior year. A favorable change is presented when we will obtain relatively more U.S. dollars for each of the underlying foreign currencies than we did in the prior period. An unfavorable change is presented when we obtain relatively fewer U.S. dollars for each of the underlying foreign currencies than we did in the prior period. These indexed hedge rates impact sales, and as a result also gross profit, operating income and net income, in our consolidated financial statements. The final impact of currency

fluctuations on the results of operations is dependent on the local currency amounts hedged and the actual local currency results.

Recent Accounting Pronouncements

In September 2006, the FASB issued FAS No. 157, "Fair Value Measurements" ("FAS No. 157"), which addresses how companies should measure fair value when they are required to use a fair value

measure for recognition or disclosure purposes under generally accepted accounting principles. FAS No. 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. FAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and should be applied prospectively, except in the case of a limited number of financial instruments that require retrospective application. We are currently evaluating the potential impact of FAS No. 157 on our financial position and results of operations. This statement is effective for our fiscal year 2009.

In February 2007, the FASB issued FAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115" ("FAS No. 159"). The new statement allows entities to choose, at specified election dates, to measure eligible financial assets and liabilities at fair value that are not otherwise required to be measured at fair value. If a company elects the fair value option for an eligible item, changes in that item's fair value in subsequent reporting periods must be recognized in current earnings. FAS No. 159 is effective for fiscal years beginning after November 15, 2007. We are currently evaluating the potential impact of FAS No. 159 on our financial position and results of operations. This statement is effective for our fiscal year 2009.

Cautionary Statement Regarding Forward-Looking Information

Statements contained in this report, as well as oral statements we make which are prefaced with the words "may," "will," "expect," "anticipate," "continue," "estimate," "project," "intend," "designed," and similar expressions, are intended to identify forward looking statements regarding events, conditions, and financial trends that may affect our future plans of operations, business strategy, results of operations, and financial position. These statements are based on our current expectations and estimates as to prospective events and circumstances about which we can give no firm assurance. Further, any forward-looking statement speaks only as of the date on which such statement is made, and we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made. As it is not possible to predict every new factor that may emerge, forward-looking statements should not be relied upon as a prediction of our actual future financial condition or results. These forward-looking statements, like any forward-looking statements, involve risks and uncertainties that could cause actual results to differ materially from those projected or anticipated. Such risks and uncertainties include technological advances in the medical field and our standards for transfusion medicine and our ability to successfully implement products that incorporate such advances and standards, product demand and market acceptance of our products, regulatory uncertainties, the effect of economic and political conditions, the impact of competitive products and pricing, the impact of industry consolidation, foreign currency exchange rates, changes in customers' ordering patterns, the effect of industry consolidation as seen in the Plasma market, the effect of communicable diseases and the effect of uncertainties in markets outside the U.S. (including Europe and Asia) in which we operate. The foregoing list should not be construed as exhaustive.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's exposures relative to market risk are due to foreign exchange risk and interest rate risk.

FOREIGN EXCHANGE RISK

See the section entitled Foreign Exchange for a discussion of how foreign currency affects our business. It is our policy to minimize for a period of time, the unforeseen impact on our financial results of fluctuations in foreign exchange rates by using derivative financial instruments known as forward contracts to hedge anticipated cash flows from forecasted foreign currency denominated sales. We do not use the financial instruments for speculative or trading activities. At September 29, 2007, we had the following significant foreign exchange contracts to hedge the anticipated cash flows from forecasted foreign currency denominated sales outstanding:

Hedged Currency	(BUY)/SELL Local Currency	Weighted Spot Contract Rate	Weighted Forward Contract Rate	Fa	nir Value	Maturity	
Euro	5,450.000	\$1.295	\$1.312		(546,445)	Oct-Nov 2007	
Euro	8,506,000	\$1.305	\$1.320	S	(789,309)	Dec 2007–Feb 2008	
Euro	9,080,000	\$1.345	\$1.358	\$	(506,954)	Mar–May 2008	
Euro	7,871,000	\$1.370	\$1.378	\$	(284,295)	Jun-Aug 2008	
Japanese Yen	997,000,000	117.2 per US\$	112.3 per US\$	\$	218,108	Oct-Nov 2007	
Japanese Yen	1,280,000,000	120.0 per US\$	115.0 per US\$	\$	(85,244)	Dec 2007–Feb 2008	
Japanese Yen	1,331,000,000	120.6 per US\$	115.8 per US\$	\$	(265,930)	Mar–May 2008	
Japanese Yen	1,370,000,000	116.7 per US\$	112.4 per US\$	\$	(30,118)	Jun-Aug 2008	
			Total:	\$	(2,290,187)		

We estimate the change in the fair value of all forward contracts assuming both a 10% strengthening and weakening of the U.S. dollar relative to all other major currencies. In the event of a 10% strengthening of the U.S. dollar, the change in fair value of all forward contracts would result in a \$11.6 million increase in the fair value of the forward contracts; whereas a 10% weakening of the US dollar would result in a \$12.7 million decrease in the fair value of the forward contracts.

INTEREST RATE RISK

All of our long-term debt is at fixed rates. Accordingly, a change in interest rates has an insignificant effect on our interest expense amounts. The fair value of our long-term debt, however, does change in response to interest rate movements due to its fixed rate nature. These changes reflect the premium (when market interest rates decline below the contract fixed interest rates) or discount (when market interest rates rise above the fixed interest rate) that an investor in these long term obligations would pay in the market interest rate environment.

At September 29, 2007, the fair value of our long-term debt was approximately \$0.7 million higher than the value of the debt reflected on our financial statements. This higher fair market is entirely related to the \$7.0 million remaining principal balance of the original \$10.0 million, 8.41% real estate mortgage due January, 2016.

Using scenario analysis, if the interest rate on all long-term maturities changed by 10% from the rate levels that existed at September 29, 2007 the fair value of our long-term debt would change by approximately \$0.1 million.

ITEM 4. CONTROLS AND PROCEDURES

We conducted an evaluation, as of September 29, 2007, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer

(the Company's principal executive officer and principal financial officer, respectively) regarding the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rule 13a-15 of the Securities Exchange Act of 1934 (the "Exchange Act"). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

In fiscal 2007, the Company initiated a company-wide implementation of Oracle, a global enterprise resource planning (ERP) system (see Footnote #16). The Company successfully completed major go live milestone implementations in the ERP system in Europe, Japan and Asia during the three months ended September 29, 2007. The ERP implementation replaced our existing order entry, fulfillment, service and financial systems, resulting in significant changes to our business processes and therefore our controls. These changes are intended to improve customer service and controls and reduce manual processes. As with any significant change we have identified certain control deficiencies resulting from business process, system and user issues. The governance surrounding our implementation process is designed to identify and remediate issues of this nature, and includes participation from global users, functional leaders and ERP implementation leads. We have monitoring controls in place to ensure the ongoing reliability of our financial reporting. We believe the controls, as implemented, are appropriate and functioning effectively.

Other than the change mentioned above, no other change in the Company's internal control over financial reporting occurred during the three months ended September 29, 2007 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Additionally, subsequent to September 29, 2007 the Company replaced our order entry, fulfillment, service and financial systems in the United States. This represents additional changes to our internal control over financial reporting for the third quarter of fiscal 2008.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

Not applicable

Item 1A. Risk Factors

In addition to the other information set forth in this report, careful consideration should be given to the factors discussed in Part 1, "Item 1A. Risk Factors" in the Company's Annual Report on Form 10-K for the year ended March 31, 2007, which could materially affect the Company's business, financial condition or future results. The risks described in the Company's Annual Report on Form 10-K are not the only risks facing the Company. Additional risks and uncertainties not currently known to the Company or that it currently deems to be immaterial also may materially adversely affect its business, financial condition and/or operating results.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Haemonetics Corporation repurchased approximately 1.46 million shares of its common stock through September 29, 2007 for an aggregate purchase price of \$75.0 million. This completed a \$75.0 million share repurchase program which was announced in May 2007. The Company reflects stock repurchases in its financial statements on a "trade date" basis and as Authorized Unissued (Haemonetics is a Massachusetts company and Massachusetts Law mandates that repurchased shares are to be treated as authorized unissued).

The table below illustrates the shares repurchased during the six months ended September 29, 2007. All of the purchases during the six months period were made under the program which was publicly announced in May 2007. All purchases were made in the open market.

Period 	Total Number of Shares Repurchased	Av	verage Price Paid per Share including Commission	Sh	Total Dollar Value of ares Purchased as Part f Publicly Announced Plans or Programs	 aximum Dollar Value of chares that May Yet be Purchaed Under the Plans or Programs
April 1, 2007 to April 28, 2007	N/A		N/A		N/A	N/A
April 29, 2007 to May 26, 2007	123,702	\$	48.90	\$	6,049,383	\$ 68,950,617
May 27, 2007 to June 30, 2007	454,234	\$	51.66	\$	23,467,700	\$ 45,482,917
July 1, 2007 to July 28, 2007	535,437	\$	51.54	\$	27,594,574	\$ 17,888,343
July 29, 2007 to August 25, 2007	349,675	\$	51.16	\$	17,888,181	\$ 162
August 26, 2007 to September 29, 2007	N/A		N/A		N/A	\$ 0
Total	1,463,048	\$	51.26	\$	74,999,838	\$ 0

As of September 29, 2007, the Company had 26.1 million basic weighted average shares of its Common Stock outstanding.

Item 3. Defaults upon Senior Securities

Not applicable.

Item 4. Submission of Matters to a Vote of Security Holders

On August 1, 2007 the Company held its annual meeting of stockholders. At the meeting, Susan Bartlett Foote, Pedro Granadillo and Mark W. Kroll, Ph.D. were re-elected as Directors for a term ending in 2010. The voting results were as follows:

Susan Bartlett Foote	For	23,107,904	Withheld	1,609,093
Pedro Granadillo	For	22,628,163	Withheld	2,088,834
Mark W. Kroll, Ph.D.	For	24,582,119	Withheld	134,878

The other members of the Board of Directors whose terms continued after the meeting were:

Serving a Term Ending in 2008—Lawrence C. Best, Richard J. Meelia and Ronald L. Merriman

Serving a Term Ending in 2009—Ronald G. Gelbman and Brad Nutter

At the meeting, the stockholders voted to approve the Haemonetics Corporation 2007 Employee Stock Purchase Plan as described in the accompanying Proxy Statement. The vote was as follows:

For 21,842,933 Against 1,100,631 Abstain 10,289 Broker Non-Vote 1,763,144

At the meeting, the stockholders ratified the selection by the Board of Directors of Ernst & Young LLP as independent public accountants for the current fiscal year. The vote was as follows:

For 24,620,777 Against 77,544 Abstain 18,676 Broker Non-Vote —

HAEMONETICS CORPORATION

2005 LONG-TERM INCENTIVE COMPENSATION PLAN

RESTRICTED STOCK AGREEMENT

WITH

"EMPLOYEE"

HAEMONETICS CORPORATION RESTRICTED STOCK AGREEMENT ("Agreement") UNDER 2005 LONG-TERM INCENTIVE COMPENSATION PLAN

THIS AGREEMENT, dated as of ("Grant Date") by and between Haemonetics Corporation, a Massachusetts Corporation ("Company"), ("Employee"), is entered into as follows: and

WHEREAS, the Company has established the Haemonetics Corporation 2005 Incentive Compensation Plan ("Plan"), a copy of which has been provided to Employee, and which Plan is made a part hereof; and

WHEREAS, the Compensation Committee of the Board of Directors of the Company ("Committee") determined that the Employee be granted shares of the Company's \$0.01 par value Common Stock ("Stock") subject to the terms and conditions as hereinafter set forth;

NOW, THEREFORE, the parties hereby agree as follows:

Grant of Stock.

Subject to the terms and conditions of this Agreement and of the Plan, the Company hereby grants to the Employee Stock").

of Stock ("Restricted

Vesting Schedule.

- (a). The interest of the Employee in the Stock shall vest as to 25% of such Restricted Stock on the first anniversary of the Grant Date, and as to an additional 25% on each succeeding anniversary date, so as to be 100% vested on , the fourth (4th) anniversary thereof, conditioned upon the Employee's continued employment with the Company as of each vesting date. In situations where there is not continued employment, notwithstanding the foregoing, the interest of the Employee in the Stock shall vest as specified below.
- (b). Except as otherwise provided in this Section 2 if the Employee ceases to be an employee of the Company prior to the fourth (4th) anniversary of the Grant Date, the Restricted Stock granted to the Employee hereunder shall stop vesting on the last date of employment. In such event, vesting shall not be prorated between anniversary dates and the vested amount shall be determined as of the most recent anniversary of the Grant Date.
- (c). If such termination of employment is because the Employee has become disabled as defined in Article 2 of the Plan, such Restricted Stock shall continue to vest.
- (d). If such termination of employment is because the Employee has retired from the Company in good standing then such Restricted Stock shall stop vesting on the last date of employment. For purposes of this Restricted Stock Agreement, retirement shall mean that the Employee shall have reached age fifty five, and shall have completed at least five years of service with the Company. Years of service with any of the Company's wholly owned subsidiaries shall be credited as years of service with the Company.

- (e). In the event of the death of the Employee while in the employ of the Company, any unvested Restricted Stock shall immediately become fully vested.
- (f). All of the then unvested Restricted Stock will vest in the event of (i) any sale or conveyance to another entity of all or substantially all of the property and assets of the Company or (ii) a Change of Control occurs before the Restricted Stock has been vested in full. For purposes hereof a "Change in Control" shall be deemed to have occurred if any person, or any two or more persons acting as a group, and all affiliates of such person or persons, who prior to such time owned less than thirty-five percent (35%) of the then outstanding Common Stock of the Company, shall acquire such additional shares of the Company's Common Stock in one or more transactions, or series of transactions, such that following such transaction or transactions, such person or group and affiliates beneficially own thirty-five percent (35%) or more of the Company's Common Stock outstanding.

3. Restrictions.

- (a) The Restricted Stock or rights granted hereunder may not be sold, transferred, pledged, assigned, encumbered, or otherwise alienated or hypothecated until the end of the applicable Period of Restriction established by the Committee and specified in accordance with Section 2 hereof. The period of time between the date hereof and the date Restricted Stock becomes vested is referred to herein as the "Period of Restriction".
- (b) If the Employee's employment with the Company is terminated, the balance of the Restricted Stock subject to the provisions of this Agreement which have not vested at the time of the Employee's termination of employment shall be forfeited by the Employee, and the Company shall have a right to repurchase any unvested Stock from the Employee at a price per share equal to the Stock par value per share set forth above. The Company's right to so repurchase the Restricted Stock shall be valid for a period of one year beginning on the date of any Termination of Service of the Employee, or, if the Company is prohibited by law from such repurchase at the time of Termination of Service, for thirty days after any such prohibition is terminated.

4. Escrow.

All Restricted Stock which has not vested pursuant to Section 2, together with any securities distributed in respect thereof through stock split or other recapitalization, shall be retained in the Company's possession until such time as all conditions and/or restrictions applicable to such Stock have been satisfied. The Stock may also be held in a restricted book entry account in the name of the Employee. The Company shall promptly release vested Stock after the applicable Period of Restriction.

5. Employee Shareholder Rights.

During the Period of Restriction, the Employee shall have all the rights of a shareholder with respect to the Restricted Stock granted hereunder except for the right to transfer the Restricted Stock, as set forth in Section 3 and except as set forth in Section 6. Accordingly, the Employee shall have the right to vote the Restricted Stock and to receive any cash dividends paid to or made with respect to the Restricted Stock.

6. Adjustments or Changes in Capitalization.

Adjustments or changes in capitalization and the like shall be made in accordance with Article 4 of the Plan, as in effect on the date of this Agreement.

In the event that as a result of (a) any stock dividend, stock split or other change in the Stock, or (b) any merger or sale of all or substantially all of the assets of or other acquisition of the Company (other than a Change of Control, as defined above), and by virtue of any such change the Employee shall, in his capacity as owner of unvested shares of Restricted Stock which have been awarded to him (the "Prior Restricted Stock"), be entitled to new or additional or different shares or securities, such new or additional or different shares or securities shall thereupon be considered to be unvested

Restricted Stock and shall be subject to all of the conditions and restrictions which were applicable to the Prior Restricted Stock pursuant to this Agreement.

7. Disability termination or permanent and total Disability of Employee.

In the event of a termination for Disability or permanent and total Disability of the Employee, any unpaid but vested Restricted Stock shall be paid to the Employee if legally competent or to a legally designated guardian or representative if the Employee is legally incompetent.

8. Taxes.

The Employee acknowledges and agrees that any income or other taxes due from the Employee with respect to the Stock issued pursuant to this Agreement, including on account of the vesting of the Stock, shall be the Employee's responsibility. By accepting this Grant, the Employee agrees and acknowledges that (i) the Company will promptly withhold from the Employee's pay the amount of taxes the Company is required to withhold upon any vesting of Stock pursuant to this Agreement, and (ii) the Employee shall make immediate payment to the Company in that amount of any tax required to be withheld by the Company in excess of the Employee's pay available for such withholding.

9. Miscellaneous.

- (a) The Company shall not be required (i) to transfer on its books any shares of Stock of the Company which shall have been sold or transferred in violation of any of the provisions set forth in this Agreement, or (ii) to treat as owner of such shares or to accord the right to vote as such owner or to pay dividends to any transferee to whom such shares shall have been so transferred.
 - (b) The parties agree to execute such further instruments and to take such action as may reasonably be necessary to carry out the intent of this Agreement.
- (c) Any notice required or permitted hereunder shall be given in writing and shall be deemed effectively given upon delivery to the Employee at his address then on file with the Company.
- (d) Nothing contained in the Plan or this Agreement shall be construed or deemed by any person under any circumstances to bind the Company to continue the employment of the Employee during the Period of Restriction. However, during the Employee's employment, the Employee shall render diligently and faithfully the services which are assigned to the Employee from time to time by the Board of Directors or by the executive officers of the Company and shall at no time take any action which directly or indirectly would be inconsistent with the best interests of the Company.
- (e) This Agreement and the Plan constitute the entire agreement of the parties with respect to the subject matter hereof.

 HAEMONETICS CORPORATION

 ("Employee")

EXHIBIT 10.1

CERTIFICATION

I, Brad Nutter, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of Haemonetics Corporation;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
